PROJECTS

<https://mohsin-ayaz.netlify.app/>

Budget-Tracker

Responsive react app to track expenses and visualize budget distribution using charts and state management.

Sales Dashboard

An interactive sales dashboard in React with dynamic data visualization and modular component architecture.

Use Popcorn

Built a movie search and watchlist functionality using React, API integration, and custom hooks for smooth UX.

Task-Management

Designed a React-based task manager with dynamic filtering, status updates, and clean component structure.

Hotel Management

Hotel Management frontend in React featuring booking forms, client listings, clean layout and interactive UI elements.

Shopify Clone

Developed a React-based e-commerce frontend mimicking Shopify with product listings, cart functionality, and responsive design.
